WHAT MAKES STAGG SERIES CAST CYMBALS SO GOOD?

Ask any drummer what makes the best cymbal and they will agree on a number of things:

B20 bronze...a mixture of 80% copper and 20% tin.
Hand hammering... producing the final shape, allowing the craftman's natural skill to resonate within each individual cymbal.

Lathing by hand... to create the perfect tone, as well as making the cymbal look as good as it sounds.

A perfect blend of dynamics, making each cymbal an expression of the drummer's 'voice'.

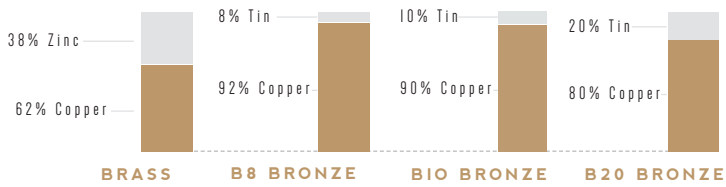

Each Stagg Series cymbal is the result of years of skill and dedication passed from one generation to the next. A genuinely handmade cymbal worthy of the greatest performances.

We invite you to compare Stagg Series to the best. Every hand-made cymbal is a true instrument in its own right, not copied or mass produced. We know you will find your true sound in this range of cymbals.

VB

Jazzy

Designed with the discerning old-school player in mind, Stagg's VINTAGE BRONZE Series cymbals offer an even response across the harmonic spectrum, with a slight emphasis on the lows.

The resulting sound can be characterized as warm, dense and just the right side of dark sound, blending beautifully into any rock or jazz setting.

HI-HAT

MEDIUM

WIDE DYNAMIC SPECTRUM WITH A SOFT,
WARM AND DARK SOUND.

A photograph of a drummer, Ben Dolezal, performing on stage. The view is from behind the drummer, showing his head and shoulders as he plays. He is wearing a dark t-shirt and a black wristband on his left hand. The drum set includes a snare drum in the foreground, a tom, and several cymbals. The background is filled with warm, golden stage lights, creating a hazy and atmospheric scene. The lighting is soft and diffused, highlighting the contours of the drummer's head and the metallic surfaces of the drums.

BEN DOLEZAL (THE DYING)

BM

Modern Dry
New Look Better Sound

The BLACK METAL series represents a departure from the core Stagg cymbal sound. It focuses instead on a dry, mid-scooped response, with a strong accent on the low-end harmonics, resulting in a sound as dark as its look! Highly recommended for the new breed of modern drummers.

SENSA

Sweet Sensation

SENSA is definitely an ideal all-round series for drummers searching for cymbals with flexibility and variation of tone. The sound can be characterized as warm, sweet, bright, fast cut and washy, but all the while maintaining clear definition.

The addition of new effect cymbals bring a brand new trashy sound to the Stagg cymbal range, further meeting the needs of today's modern discriminating drummers!
